## NOEAU'S LONG TRIP TAKE UP WIRELESS

SOME OF HER FREIGHT IS STILL ON BOARD

Returns With Small Sugar Cargo After Hard Time With Strong Winds and Heavy Seas.

The steamer Noeau arrived in port at 4:23 o'clock this morning from Hawaii and Maui with 1156 bags of sugar and two packages of sundries. She experienced rough weather during most of the trip.

The Noeau sailed from Honolulu eleven days ago, Friday morning, the 14th inst., arriving at Kaunapali in the evening of the same day. From Kaunapali she proceeded to Honokaa, landed mail and passengers and half of her general freight. Seas became very rough and one of the Noeau's boats was damaged. A boat load of freight was lost.

Leaving Honokaa, the Noeau went to Kukuiahae, discharged freight, then went to Waipio. The weather was so bad that it was impossible for the Noeau to work all last week. She left Waipio last Wednesday morning but could not get to Honokaa or Kukuiahae.

The Noeau then proceeded to Hilo, for provisions, the stock aboard by this time beginning to run low.

On Thursday morning the Noeau left Hilo. She could not work at Honokaa so went on to Kukuiahae once more where she managed to load 1156 bags of sugar, the only sugar she brought to Honolulu.

Lots of rain, strong winds and heavy swells were experienced off the Hamakua coast.

The Noeau with difficulty landed all her Kukuiahae freight but still has some of her Honokaa freight on board, the sea being so rough at that port that she was unable to land everything.

The weather crossing the channel on the way to Honolulu was decidedly rough. It rained all the time and heavy seas and strong winds were met with. Eleven days is an unusually long trip for the Noeau.

## SOLDIERS LEFT BEHIND

A. Carzell, the colored soldier who was arrested Sunday night for smashing a window in the house of Nieper, the expressman, did not get away on the transport Hancock as was thought possible yesterday when his case came up in the Police Court in the forenoon.

It will be remembered that Kaulukou, attorney for the defendant, said he would either go personally or send someone to the transport Hancock to get the \$5 necessary to pay for Nieper's dislocated window and that he would return in good time with the money.

No one knows just what happened at the transport but certain it is that the attorney came back without the \$5 and without anything extra that he might have been looking for as a fee. The long and the short of it was that he could not live up to what he had assured the court and not wishing to pay the amount himself, it became necessary to retain Carzell in custody at the police station. In the meantime, the Hancock sailed.

The case came up in the Police Court again in the forenoon with Kaulukou still acting as attorney. Carzell waived examination and he was committed to the Circuit Court for trial on the charge of common nuisance.

It is understood that the money demanded by Nieper for damages will be forthcoming in a day or so and that the man will then be sent to Camp McKinley to await the next transport for Manila. He is characterized as a very good man but unfortunately he took one glass too many and got himself into trouble.

NEW YORK FINANCIERS BECOMING INTERESTED

Company that Bought American Rights Exclusive of Hawaii is Being Rejuvenated High Capitalization.

New York, March 7.—Negotiations are now under way for the formation of a new company in this country to operate a wireless system of telegraph under the patents of Guglielmo Marconi. While the proposition has not advanced sufficiently to admit of any announcement of the company's plans at the present time, it is definitely stated that the deal will be consummated in a short time.

The details of organization are being looked after by Col. John J. McCook. When Col. McCook was seen today at his office, he admitted that such negotiations have been under way but that as counsel for Signor Marconi, it would be unprofessional for him to make any statement concerning the proposed company.

Signor Marconi was seen by a reporter for the Commercial at his apartments in the Hoffman House. When asked concerning the rumor that a number of capitalists in America had been interested in his wireless system of telegraphy, he said:

"How do matters of this kind leak out so quickly in this country? I was under the impression that no one knew anything about the plan. Yes, it is true that several financial interests here have made proposals in regard to the formation of a company to operate my system in this country, but negotiations have not progressed far enough for me to say anything regarding my plans in that direction.

"Of one thing you may be sure, and that is that our English company will not part with all of our rights in connection with the new company. We consider the stock of too great value to turn it all over to other interests.

"I have come to the United States this time to look after the establishment of a station on this side of the Atlantic, and will sail tomorrow for England, where I will continue my experiments. I expect, however, to return to this country in a few months."

The Marconi Wireless Telegraph Co. of America, was incorporated under New Jersey laws in 1899, with a capital of \$5,000,000, 8 per cent non-cumulative preferred stock and \$5,000,000 common stock, but no money was ever paid into the treasury of the company, and nothing has ever been done to develop its interests. While the company is controlled in the interests of the Wireless Telegraph & Signal Co., Ltd., of London, it has never acquired any rights by purchase in the Marconi system. It is understood that the new company which is in the process of formation will either purchase the charter of this company or will incorporate under another name. The American company has exclusive rights in all parts of the country except Hawaii.

Capitalists in this city have taken an unusual interest in wireless telegraphy since Signor Marconi's success in transmitting messages from England to Nova Scotia and his later experiments from Poldhu to the steamship Philadelphia.—New York Commercial.

Dr. A. Berger of Sorbonne suggested in a lecture delivered before a number of scientists at Paris the other day that an international monument should be raised to the memory of the late Lieutenant Matthew F. Maury of the United States, a pioneer of modern meteorology and hydrography.

Sarah Bernhardt's son, Maurice, is said to have made a complete failure with his first play, a tragedy entitled "Nini L'Assommeur," lately tried in Paris.

## PRESENT SITUATION IN FOURTH DISTRICT

A Home Rule Republican met a Republican on the street this morning and asked: "What are you going to do about a candidate in the Fourth District to run for the vacant seat in the Legislature?"

"Evidently nothing," came the reply.

"Then that settles it," replied the Home Ruler. "We are simply waiting for you people and if you hold off until the last minute, we will probably do the same, and the result will be that neither side will take action. As the Democratic candidate is not eligible, it would not be at all surprising to me if there was no one to run at the special election."

From the looks of things at the present time, there really seems to be a possibility of things happening just as the Home Ruler stated. The Republican party has been casting about for a candidate, both the Dole and anti-Dole factions having been appealed to, but no one seems to be anxious to take upon himself the honor.

The Home Rulers have done nothing more about a candidate. F. W. Beardslee has been named by a minority of the sub-committee appointed to search for a candidate and he is the only man now under consideration. All other plans seem to have been abandoned.

In the meantime, there is nothing to prevent anyone, irrespective of party, from banding in his name at the last moment and standing as the only candidate for the Fourth District. If no votes were cast, his own would elect him.

The Home Rulers were somewhat excited this morning over the statement made by Governor Dole that he might be absent on the Mainland for a couple of months. They seem to think that Secretary Cooper, acting as Governor, would call a special session of the Legislature. If he looks upon himself as a candidate for the Governorship, he could do nothing that would gain him as many votes.

So far as the Fourth District Committee of the Republican party is concerned, there is nothing yet. A search is still being made for a candidate.

The attempt of the Russian Government to compel the people to buy their vodka in sealed packages and take it home to drink has proved a failure. The purchasers prefer to drink in the streets rather than wait until they can return home.

Cardinal Casca's recent death in Rome makes a total of 136 members of the Sacred College to die since Leo XIII began his reign. It now consists of thirty-nine Italians and twenty-six of other nations, with five vacancies.

## A WISE MAN'S STORY.

Former Congressman John Wise of Virginia, now of New York, is a warm personal friend of President Roosevelt. Being in Washington a few days ago he visited the White House and was promptly accorded an interview. In the course of the conversation the President is said to have suddenly remarked:

"Now, John, you are a very observant man and know pretty near what is going on. Tell me what the people seem to think of my administration?"

"Oh, Mr. President," Mr. Wise replied, "the opinion seems to be that you will go down to posterity as a Washington."

"I am delighted to hear that," the President is said to have answered interrupting as he grasped Mr. Wise's hand and shook it heartily. But as he released his hold Mr. Wise continued:

"But whether it will be as a George or a Booker T. I am not prepared to say."
